Mrs. Susanne

55 years old, France, 2020

Susanne wanted to look young and wished to undergo a stem cell anti-ageing treatment in India which, as per her went tremendously well at Stem Cell Care India. According to her, at her age of 55, it is really hard to keep on with the young looks. However, she was determined to opt for an anti-ageing treatment. However, in her own country, it was very expensive and had disastrous results so she explored the web and decided to visit India for her treatment. I was pretty cynical from the beginning but my case manager from SCCI told me I should come and just meet some doctors to know more. After all the discussions, I decided to undergo the treatment and now I am very happy with the results I got.
