

HAPPY BUERGER'S PATIENTS

OVERVIEW

IGA nephropathy (nuh-FROP-uh-thee), also acknowledged as Berger's disease, is a kidney syndrome that happens when an antibody called immunoglobulin A (IgA) lodges in your kidney.

Kidney impairment might be specified by the blood and protein in your urine, high blood pressure and inflamed feet.

Chelsea

15 years, US, 2022

When Chelsea was 14 years old, she was detected with Burger's Disease. Since then, her life has been very difficult and dreary. After a lot of struggle and hit and trials regarding the treatments, her parents decided to opt for stem cell treatment in India via SCCI. Her parents are very thankful to the team of SCCI as the team handled her case very professionally. After the treatment, Chelsea is able to experience a lot of improvement in her condition and in her life. She is able to live a normal life now.

Paul

38 years, UK, 2021

Paul, 38 years in age, was suffering from Burger's Disease since past years. His life had been very miserable since then. He tried a lot of therapies and medicines but wasn't happy with the outcomes. He finally decided to come to India for getting stem cell treatment. He contacted Stem Cell Care India for this. It has been 6 months to his treatment and he has been able to experience a lot of improvement in her condition. He is very happy with the results and the team of SCCI.

Aafiya

23 years, Delhi, 2022

I never thought that symptoms I ignored, thinking they were not severe, could have been indicators of my suffering from Buerger's disease. It was when I started going through extreme pains that I took notice of the issues at hand and started seeking medical care for my help. After a slew of tests, it was revealed that I was suffering from Buerger's disease, and I was prescribed a heavy prescription of medicines to control my condition. I followed the prescription religiously, but my symptoms were still prevalent. I wanted a cure that could improve my condition. It was then that a friend of mine told me about Stem Cell Care India and how, with their Stem Cell therapy, they could bring betterment to my symptoms. Motivated, I booked my appointments and travelled to India. In India, my treatment was done according to the schedule of my stay. My conditions and symptoms showcased signs of improvement after that. I hope my symptoms improve further and prove the promises made by Stem Cell Care India.

Liam

20 years, Australia, 2020

I was diagnosed with Burger's Disease when I was 14 years old. Since then, my life has been tough and dreary. Finally, after a lot of struggle, hits, and trials regarding the treatments, my family decided to go for stem cell treatment through SCCI in India. We are very thankful to the whole team of SCCI. Now, after the treatment, I can experience a lot of improvement in my condition.

Nadia

43 years, UK, 2021

Hi, I am Suhana from UK, and I came to India to treat Buerger's disease. Unfortunately, I could not find a good and effective treatment process for my condition. But then, my sister told me about stem cell therapy via SCCI. So I contacted them and visited India for the further process. It has been a few months of treatment, and I can experience much improvement in the condition. I am delighted with the results and the SCCI team.

Antoni

44 years, Poland, 2022

Hello, I am Antoni from Lublin, and I used to feel a tingling sensation in my arms and legs; if that were not all, the ends of my fingers on my foot would sometimes have a blue tinge to them as well. I thought it was probably due to my extremely fair complexion, but as time passed, I started feeling pain in my limbs when moving them around. While I was resting, I did not feel any pain. Motivated to find the reason behind my Pains, I started seeking medical help, and I was told that these symptoms could be an early sign of Buerger disease and I should get checked. After a few tests, it was revealed that I had Buerger's disease. I was devastated and wanted to seek a cure for the disease. While scouring the internet for a possible solution, I found Stem Cell Care India, and on their website, I read how Stem Cell Therapy could help me in the pursuit. I immediately contacted them and asked them for help. I booked my appointments according to my travel dates and managed to reach India in no time. In India, my treatment was done with the most profound diligence possible. My symptoms have decreased after the treatment.

PATIENT TESTIMONIALS

PATIENT NAME	AGE	DISORDER	COUNTRY	YEAR OF TREATMENT	FOLLOW-UP FEEDBACK
