# OVERVIEW

Infertility can be caused in many ways. However, the precise cause can be hard to determine and some pairs have “unexplained” infertility or “multifactorial” infertility (multiple causes, often both male and female factors).

Stem cell is a highly trusted and reliable procedure that is based on numerous variety of fertility issues inclusive of ovarian regeneration, oocyte production.

# PATIENT STORIES

## Emma Dyer

39 years old, US, 2020

I recommend this treatment for women who have low egg counts and poor egg quality. My fertility doctor recommended this and it has helped me get pregnant. There is a longer procedure and it is more painful but it works. The doctor was kind to explain the procedure in detail so that I will not feel any suspicion or be afraid. They also helped me with my travel planning and paperwork, which provided me with a smooth experience..

## Julian Hammer

32 years old, California, 2019

I was getting ready to go on vacation and my friend told me about this place. They offer stem cell therapy, which is an alternative method to IVF. The procedure was an easy and non-invasive alternative to the expensive IVF treatments that I have considered in the past. I can say that I had good results and I'm feeling healthier and happier every day.

## Saniyah Bishara

30 years old, Rajasthan, India, 2022

I knew about the benefits of stem cell therapy for women who are infertile but did not still believe that my own fertility could be improved by using it. The treatment is painless and very safe. I was surprised at the results and would certainly recommend that women of childbearing ages look into it if they are having issues with fertility.

## Sameera

34 years old, UK, 2021

My friend told me about Stem Cell Institute as they offer stem cell therapy, an alternative method to IVF. The procedure was an easy and non-invasive alternative to the expensive IVF treatments I have considered. I have had good results and feel healthier and happier every day.

# PATIENT STORIES

## Albeena Sheikh

31 years old, Dubai, 2021

I was having problems conceiving a baby. Then my native doctor suggests I should go for stem cell treatment at Stem Cell Institute in India. I have had a great experience with them. The whole team is very compassionate and approachable. They helped me through the treatment process. I am very grateful to them and recommend this therapy to everyone who needs a safe, reasonable, and effective treatment.

## Henry Louis

38 years old, Canada, 2022

I am delighted that I chose Stem Cell Institute for stem cell treatment for my wife. The treatment is painless and very safe. I was surprised at the results and would recommend that women of childbearing age look into it if they have fertility issues. I want to thank all the members of Vizec.

## Ally Daniels

34 years old, California, 2022

Hi, I am Ally from California. For the last few years, my husband and I have been trying to conceive a baby but have failed every time. Then, we decided to take help from the doctor. When they conducted various tests, the doctor concluded that I had low egg counts and poor egg quality. So, he recommends to undergo stem cell treatment at Stem Cell Institute in India. Without any delay, we visited India to seek some help, and the doctor was kind to explain the procedure in detail so that I would not feel any suspicion or be afraid. They also helped me with my travel planning and paperwork, which provided me with a smooth experience.

# PATIENT TESTIMONIALS

PATIENT NAME	AGE	DISORDER	COUNTRY	YEAR OF TREATMENT	FOLLOW-UP FEEDBACK
