

OVERVIEW

The kidneys -the two bean sized organs filter out wastes and fluid from your blood. When the kidneys cannot filter the blood the way they should, kidney diseases occur

People with high blood pressure and diabetes are at a higher risk of kidney disease.

KOHINUR BEGAM FULBARI

came from Bangladesh for Chronic Liver Disease congestive gastropathy with hypertension Treatment

I have come from Bangladesh for taking stem cell treatment at SCCI to treat chronic liver disease with congestive gastropathy with hypertension. The hospital is very operative, and the specialists are also caring and supportive. I am happy with both the treatment and the hospital also and recommend others to come to them for taking stem cell therapy for chronic liver disease.

MOHAMMAD MOINUDDIN

Came from Bangladesh for Liver Cirrhosis, CKD, Diabetes & Diabetic foot Ulcer Treatment

The whole procedure, service, and doctors are all satisfactory. I'm satisfied with the treatment and the level of their service.

Doctors were helpful enough to help me with the best treatment. It is not a surgical and heavy procedure, minimum pain, and best treatment. I would definitely recommend Stem Cell Care to other patients looking for treatment.

★★★★★ 2 years ago

Since 2007 I was suffering from Liver Cirrhosis, I have tried all the possible ways like everything but didn't found and improvement. One day someone suggested me for the stem cell treatment and i chose stem cell care india, and admitted on 21st jan 2020 and discharged on 24th jan. finally i am drawing my feedback after 9 and half month. Truly happy with the results.

OUTCOME LIVER PATIENTS

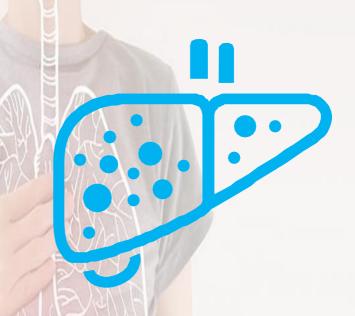

Cathie

68 years old, Australia, 2018

Cathie is ecstatic with her stem cell treatment results. She was detected with liver cirrhosis and in trying to find herself an idyllic treatment and an improved quality of life, she decided to try stem cell treatment with SCCI.

Martha

71 years old, Canada, 2019

Le improvements Martha and her family have seen have been so wonderful and so fast, much to the wonder of her doctors too after she underwent stem cell therapy in India with SCCI.

Steve

46 years old, UK, 2017

Mr. Steve had been very regular alcohol consumer from past 8 years eliciting in his liver getting preliminary signs of damage. He was soon detected with liver cirrhosis in 2015. Steve decided to treat his condition via stem cell therapy and contacted SCCI for further assistance. His condition has improved a lot after the treatment.

Eddie

35 years old, Canada, 2016

Eddie was suRering from liver cirrhosis from last 2 years. He had been struggling hard with liver disease and he wasn't able to devour his favorite food contentedly. He would like to thank the staR and medical specialists of StemCellCareIndia to give him some relief from this tormenting ailment.

Prakash

58 years old, Guwahati, 2020

Visiting Delhi and contacting SCCI is now a decision Prakash is tremendously happy to have taken. His life has improved drastically after undergoing stem cell treatment of liver cirrhosis.

Cath Mark

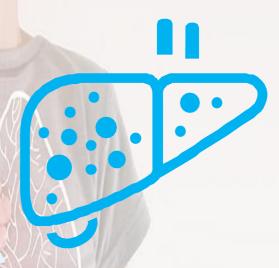

34 years, USA, 2022

Mr. Cath Mark is yet another sufferer of liver cirrhosis as he was a very regular drinker. He accepted the science of regenerative medicine and trusted Stem Cell Care India to offer him stem cells treatment. The patient has had sternly progressed liver cirrhosis, which was confirmed via a liver biopsy, after his discussion with gastroenterologist. The patient had gone through three sittings of stem cells infusion via SCCI and found radical improvement in his pathological reports; approving his retrieval. He is very thankful to the team of SCCI.

Steve

42 years, Germany, 2020

My name is Steve Park. From last 2 years, I have been struggling hard with liver disease and never let me devour my favorite food comfortably. I would like to thank the staff and medical experts of StemCellCareIndia to give me relief of this torturing ailment.

Mark

28 years, Zürich, 2022

Mr. Mark had been very regular drinker from past some years occasioning in his liver getting initial signs of degeneration. His surgeons had told him that he is might have a possibility of developing Cirrhosis soon and could eventually culminate in requiring a liver transplant in the future some years. Mr. Mark decided that he wants to try the treatment of lover via stem cell therapy and contacted SCCI stem cell therapy centre in India for further assistance. When he reached here, he had gone through some tests and lastly underwent stem cell therapy. Although he was recommended autologous bone marrow and adipose tissue stem cell therapy, but as his platelet levels were not up to the mark, it was decided that he will get mesenchymal stem cells treatment. A suitable amount of cells was vaccinated via IV in Mr. Mark. The procedure was carried out in May 2018 and a 3 month follow-up in August 2018 exhibits that the major indicators of Total Billrubin have reduced in the patient and indicators such as SGPT and Phosphate are well within standard range post treatment. Mr. Mark is very thankful to the team of SCCI for assisting him so well in his course of treatment.

Ali

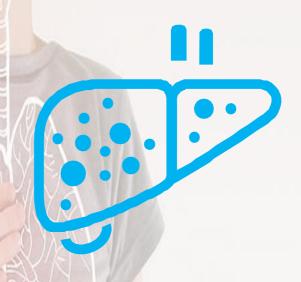

58 years, Oman, 2021

Mr. Ali from Oman, 58 years old was suffering with liver cirrhosis. He underwent stem cells treatment with SCCI; as per the recommendation of his relative. The patient visited India, all the way from his residence in Oman. His pathological rep<mark>orts we</mark>re noticeably indicating very low levels of hemoglobin 10.8, platelets 22000 and Albumin 3; which promptly reflect the possibility of liver failure. However, within 8 months of his stem cells infusion sittings, he is noticed to be recovered very pleasantly. His platelet counts have been augmented to 44000 and his albumin count has also enhanced to 4.6; thus displaying worthy recovery.

Shane

37 years, Nürnberg, 2021

I am Shane William from Zimbabwe was very healthy person five year back but due to addicted of alcohol suffering from Liver Cirrhosis from last 3 month. I am not very rich man who can afford the Liver Transplant. I sent a post on stem cell care India page (facebook) regarding the stem cell therapy for my condition. I was shocked for instant reply from them and we have shared email id and got the entire details of stem cell therapy. They have done the treatment in the hospital at very low cost.

Ziaul

19 years, Pakistan, 2022

I am the father of Ziaul Haque was only 15 years old. One day he told me about not feeling good and we went in the hospital in Karachi – Pakistan and Doctor advised us for health check-up, we were shocked the reports of his conditions due to liver failure. We got the treatment in Pakistan 1 month but due to not improvement in his condition we decided to come in India for the treatment. I have contacted to stem cell care India team to help my son for his condition.

Doctor advised me to come in India for the treatment and we decided to come in India in within I month we reached due to visa assistance by SCCI. Mesenchymal Stem Cell Therapy helped me and give my son new life. I am very happy to visit in India for the treatment especially for the Doctor who helped me a lot during the treatment.

PATIENT NAME	AGE	DISORDER	COUNTRY	YEAR OF TREATMENT	FOLLOW-UP FEEDBACK
