

# **HAPPY MAJOR SKIN ABRASIONS PATIENTS**

# OVERVIEW

Skin is human body's biggest yet the most delicate organ of our body, encompassing of chiefly three distinguished layers, namely, the outer epidermis, the middle dermis and the inmost hypodermis, each contributing distinctively towards maintaining structural and functional integrity of the organ.

Skin has some different purposeful characteristics, it serves as a protective covering, saving internal vital organs from physical, chemical and environmental attacks. Existence of the nerve endings in the skin offers sensation, while melanin gives color to the skin

## **IMPROVEMENT**

# PATIENT STORIES

**Alex**

**28 years, Portland, 2020**

I am Alex. My age is 28 years and I have been suffering from major skin abrasions. I have had chronic pain for perhaps 6 years now, perhaps a bit more. It has been really horrible. Getting used to pain is certainly not at all fun. It has affected everything in my life. I feel real pain when I walk upstairs. Walking lengthy distances is also a bad news and I can't ride bike for too long as well. Then I underwent stem cell therapy and I experienced a lot of improvement. Thanks Stem Cell Care India team.

**Nimisha**

**32 year old, Assam, 2022**

Nimisha from Assam came to Delhi for the treatment of major skin abrasions via stem cell therapy. She is really impressed by the way the team of SCCI handled her case. I am essentially pain-free; it is like night and day now. I can't believe it that I am being treated. I really appreciate the way the team of Stem Cell Care India showed professionalism and treated me so well. Thank you

**Nimita**

**26 years, MP, India 2019**

Hello, I am Nimita. I got third-degree abrasions during a freak accident on the road; even while the injury healed adequately, my skin felt itchy and tight on seeking medical help, and I learned I had suffered Third-degree abrasions. After a heft time, my scars were gone, but they had left behind marks, and I had lost elasticity in my skin. I was troubled as it used to hinder my usual gait, and the patch of healed skin used to itch terribly. While sharing the problem with one of my friends, she told me about stem cell care in India. And I, without delay, scheduled my appointments; they ensured my conditions were taken care of immediately. Within a short time, my skin's elasticity got better, and the scar tissues also started to vanish.

**Mike Teeve**

**16 years, London, 2021**

Hi, my name is Mike, and I Live in London with my parents. One day when I was playing with my brother in the kitchen area, I accidentally hurt my elbow. I was left with a large and deep wound on my elbow.

# PATIENT STORIES

## Raymond Nelson

40 years, US, 2022

I was in a terrible car accident and was going to be treated with traditional skin repair methods fortunately, my brother researched other options for skin repair and came across Stem Cells. After finding out about this unique method, I decided to give it a try. I am so glad I did! Treatment at SCCI was more affordable than I thought and their results were amazing! I had minimal scarring and my skin healed so quickly!

## Anushka Yadhuvanshi

28 year old, Assam, India, 2020

I had major skin abrasion and then my friend suggested this treatment, and to be honest, it helped me a lot, if you are looking for something affordable and effective, I highly recommend this treatment, and the best part is that it has no side effects to worry about either.

## Sandhaya

30 years, Canada, 2021

I had major skin abrasion on my thighs, and then my cousin suggested this stem cell treatment, and to be honest, it helped me a lot. So, if you are looking for something affordable and effective

## Venkatesh

36 years, Kerala, India 2019

I was under the impression that my abrasions were a simple problem that would go away once I took care, but the bleeding would not stop, and on further medical help, it was found that I suffered third-degree abrasions. I was worried and needed help that would allow me to get back to my normal health as soon as possible. That was when a Friend of mine told me about Stem cell care, and I, without any second thought, took their appointment. While under their treatment, I knew what profound respect looked like; I was subjected to no hassles and was provided medical help, which healed by abrasion. My conditions were such that I could not even move due to Tenderness in my arm and legs, but stem cell care India eradicated my movements to none with their services, and I was able to heal quickly. I implore all that read this testimonial that they should take medical help as soon as there is excessive bleeding in the abrasion.

# PATIENT TESTIMONIALS

PATIENT NAME	AGE	DISORDER	COUNTRY	YEAR OF TREATMENT	FOLLOW-UP FEEDBACK
Ejaz Khan	45	Sports Injury	Afghanistan	2017	Shakes in the hands gone. Able to get out of the wheelchair.
Berley	6	Autism	Canada	2018	Speech and cognitive abilities improved. Balance amended while sitting.
