

HAPPY RETINOPATHY PATIENTS

OVERVIEW

Retinopathy or Retinitis Pigmentosa, is the most common condition that is a progressive, degenerative disorder affecting the retina of the eye.

Retinitis Pigmentosa is characterized by the vicissitudes in the pigment owing to the resultant degeneration of optic nerves. This in turn is connected with thinning of retinal blood vessels as the demand of blood supply lowers significantly.

Patient with Diabetes Retinopathy Share His Experience after Stem Cell Therapy at SCCI

Patient Story

Diagnosis: Diabetes Retinopathy
Patient Name: Mr. Nirmal Chandra
Age: 55 years
Nationality: Indian
Treatment at Stem Cell Care India

Condition:

Mr. Nirmal Chandra, a 55 years old man presented with a history of loss of vision in both eyes due to diabetes retinopathy. He was unable to see small size letters and fluid strings in the vision. But after different treatments, he wishes to undergo stem cell therapy.

Medical History:

He had diabetes mellitus type 2 for the last 25 years. But in 2020, he suffered from diabetic ketoacidosis and managed at a similar higher center. He also suffered from a gall bladder stone that was removed in 2012. In October 2020, he faced a mild stroke along with left-sided body weakness and now medicines are going on for the same.

Cause of Diabetes Retinopathy:

Diabetic retinopathy (die-uh-BET-ik ret-ih-NOP-uh-thee) is a diabetes difficulty that affects the eyes. It's triggered by damage to the blood vessels of the light-sensitive flesh at the back of the eye (retina).

At first, diabetic retinopathy might cause no signs or only mild vision difficulties. But it can lead to sightlessness.

Diabetic retinopathy is instigated by high blood sugar because of diabetes. Over time, having too much sugar in your blood can harm your retina — the portion of your eye that perceives light and sends signals to your brain over a nerve in the back of your eye (optic nerve).

Diabetes indemnities blood vessels all over the body. The harm to your eyes starts when sugar blocks the tiny blood vessels that go to your retina, instigating them to leak fluid or bleed.

Stem Cell Therapy:

Mr. Nirmal Chandra is facing the loss of vision in both eyes because of diabetic retinopathy since 2020. Due to blurred vision, he is unable to see small size letters and fluid strings on the vision. He took conservative treatments and several other treatments for the same problem but didn't get any improvement in his health.

After doing research, he lastly wishes to go through stem cell therapy for their problem and came to Stem Cell Care India. At SCCI, he started to take stem cell therapy. He is very happy with the hospital facility and services. The team behind Stem cell Care India retains the independence needed to combine the best doctors, and facilities to guarantee the best possible outcomes. He also recommends others who come across SCCI take stem cell treatment for the same problem.

PATIENT STORY

KUNAL MONDAL

came from Kolkata for Optic Nerve Atrophy Treatment

Hi, I am Kunal's father Mr. Vishwajeet Mondal. I came to Delhi from Kolkata. My son is suffering from Optic Neuropathy from past 2 years. His treatment course is going on during which he developed some eye problems. His vision in both the eyes has reduced significantly. We were really bothered for him and took him to several clinics for treatment. But there were not much improvement in his condition. Then, we came to Delhi and got to know about stem cell treatment for optic atrophy from Stem Cell Care India. The doctors at Stem Cell Care India promised us to treat my son's eyes perfectly. So, as per their promise, they have been treating my son with great care and precision via stem cell therapy. Stem cells injections have been given to my son and doctors also gave him multi-vitamins tablets. we will be leaving for Kolkata on 5th October 2020 and we are hopeful that this treatment works really well on him and we are quite appreciative of the staff of Stem Cell Care India.

HAPPY PATIENTS

SHAIKH GAFFAR

came from Nellore, Karnataka for Retinitis Pigmentosa

I am Shaikh Gaffar from Nellore. I was diagnosed with retinitis pigmentosa 15 years back. My disease progressed very speedily, at first; I lost the ability to see in the dark i.e. I experienced night blindness. Then, slowly and gradually the disease progressed and I wasn't able to see in the day as well. It was difficult for me to even go to work. My life was getting very tough. Finally, I researched about my disease and its treatment options on YouTube and I found a lot of vogue about stem cell therapy. I contacted Stem Cell Care India for this. My treatment started. Day by day, they are giving me stem cell injections along with other therapies. I am hoping that progressively, I will be able to experience much improvement. I will be able to see more clearly in 45 days. It has been very nice to take the treatment from SCCI as their hospitality is good. The staff is pleasant and the hospitals are good too. The staff explained me the entire process of stem cell therapy and how this therapy is going to work. The staff here gave me complete care. I am very thankful to the team of SCCI.

POONAM DEVI

Came from Haryana for Retinitis Pigmentosa Treatment

Poonam's words:

2 years ago I felt a little trouble with vision, only 6 months ago it worsened and I was partially blind. I was diagnosed with Retinitis Pigmentosa that has no treatment. I was appalled with the news. Then my niece told me about Stem Cell Therapy. SCCI was my first pick amongst all the places I searched. I can vouch on their treatment facility and feel satisfied so far.

Patient with Retinitis Pigmentosa Share His Experience After Stem Cell Therapy at SCCI

Patient Story

Diagnosis: Retinitis Pigmentosa
Patient Name: Mr. RRS Swamy
Age: 33 years
Nationality: Amlapuram, Andhra Pradesh
Treatment Location: Stem Cell Care India

Condition:

A 33 years old male patient had a history of the dimness of vision in both eyes for the last 15 years. The cause of loss of vision is more prominently seen in the left eye compared to the right eye since school time. He can't read and write in dark light. With conservative treatment, he decides to undergo stem cell therapy for his problem.

Medical History of Patient:

History of night blindness and loss of vision in darkness started feeling since childhood. After some time, he started loss of vision in both eyes during day time and light flashes. He is not taking any new medicines for the problem.

Family History:

The history of retinitis pigmentosa for the elder sister and both mother and father in the family is healthy with no retinitis pigmentosa

Stem Cell Therapy for Retinitis Pigmentosa:

My name is Mr. RRS Swamy from Amlapuram, Andhra Pradesh. When I was in 7th class, I had diagnosed with retinitis pigmentosa. After that, I started to face problems with moving at the night, reading and writing. After realising, no other option was to take retinitis pigmentosa treatment. So, I went through Stem Cell Care India to take stem cell therapy for my problem. I was treated well here. At SCCI, the hospitality and treatment are well also doctors, nurses, and everyone is very helpful to the patient with RP. I also recommend others take stem cell therapy for retinitis pigmentosa.

Now, I'm feeling improvement in my condition. I didn't face any discomfort after the treatment. My experience is good here. Now, I am able to recognise fingers and more.

HAPPY PATIENTS

PATIENT STORY

PATIENT SHARE HIS EXPERIENCE AFTER 1 YEAR OF STEM CELL THERAPY FOR RETINITIS PIGMENTOSA

“ I AM RUDOLF AND I COME FROM SWITZERLAND. I HAVE BEEN SUFFERING FROM RETINITIS PIGMENTOSA FOR 30 YEARS. I WENT EVERYWHERE, ALL OVER THE WORLD, ALMOST ALL OVER THE WORLD, TO PROFESSORS AND UNDERWENT VARIOUS THERAPIES. BUT IT HAS SLOWED DOWN, BUT IT HAS NOT STOPPED. NOW I HAVE HEARD FROM INDIA THAT THEY CAN DO A TRANSPLANT OF EMBRYONIC STEM CELLS, I.E. FROM THE UMBILICAL CORD, WHICH CAN HELP THIS DISEASE. So A YEAR AGO I WAS THERE AND WAS VERY, VERY WELL LOOKED AFTER BY THE CLINIC AND THE CARERS. IT WAS A PAINLESS THERAPY AND THE RESULTS ARE STILL IMPRESSIVE. I WAS AT HOME AND AFTER TWO OR THREE MONTHS I WAS SUDDENLY ABLE TO SEE THE IMAGE ON THE COMPUTER CLEARLY IN MY RIGHT EYE AGAIN AND SINCE THEN I HAVEN'T NEEDED ANY GLASSES OR ONLY WEAK ONES. WITH MY LEFT EYE IT WAS VERY BAD AND I ONLY HAD A DARK, DISTORTED IMAGE. IT HAS NOW COMPLETELY RECOVERED AND THE IMAGE IS BRIGHT AGAIN AND IT HAS IMPROVED, AT LEAST 100 % IN MY LEFT EYE. I AM SO EUPHORIC THAT I AM NOW TRYING A SECOND TIME AND THIS. AND I WOULD ACTUALLY RECOMMEND IT TO EVERYONE. THIS IS NOT AN ADVERTISEMENT, BUT I WOULD RECOMMEND ANYONE SUFFERING FROM RETINITIS TO TRY THIS.”

PATIENT STORY

Diagnosis : RP
Age : 39 years.
Nationality : Tanzania.
Treatment : Stem cell care india.
location

PATIENT SHARE HIS EXPERIENCE AFTER 48 HOURS OF STEM CELL THERAPY FOR RETENITIS PIGMENTOSA.

“ MY NAME IS HASSAN. I GOT SURGERY IN 8TH NOVEMBER AND TODAY IS 10TH NOVEMBER, BUT RECENT CHANGE I CAN SEE AFTER SURGERY OF RP. FOR EXAMPLE, FROM TODAY MORNING I CAN DIFFERENTIATE NUMBER IN ELEVATOR ALSO FOR SLIGHTLY THEN IN THE NIGHT AREA, IT WAS DIFFICULT FOR ME TO SEE. BUT SINCE TODAY MORNING THE LIGHTS DO NOT DISTURB MY EYES. BUT ON THAT IT HAPPENS IN SOME INTACT AREAS. I GOT DIFFICULTIES JUST TO SEE SIMPLE THINGS BUT, ALSO NOW I CAN SEE THAT IF I MAY BE, BE QUITE AND LOOK CLEARLY. I CAN SEE, EVEN LITTLE. So, I CAN SAY I HAVE MAY HAVE TOO MUCH CHANGES. BUT THERE IS A DISTINGUISH, THERE IS A DIFFERENCE BETWEEN THE TIME THAT I DID AND OR I WAS IN THE TIME BEING. NOW I THINK IT IS GOING TO SOLVE, HOPEFULLY AS DOCTOR TOLD ME THAT AFTER 3 MONTH OR 6 MONTHS I HAVE TO SPEND AND I WILL HAVE GREAT GREAT CHANGES ”

PATIENT STORY

PATIENT SHARE HIS EXPERIENCE AFTER STEM CELL THERAPY FOR RETINITIS PIGMENTOSA

“ MY NAME IS ANDRI SUBAGYO. I'M FROM INDONESIA. I SUSPECTED THAT I HAD RETINITIS PIGMENTOSA ABOUT 3 OR 4 YEARS AGO. I'VE TRIED THERAPY IN INDONESIA, BUT I DIDN'T FIND IT. THEN I GET INFORMATION FROM YOUTUBE. WHAT FOR? KNOWLEDGE OF STEM CELLS FOR TREATMENT, STEM CELLS AND NOW I AM TRYING MY STEM CELLS FOR TREATMENT IN INDIA. IT DOESN'T HURT. WHAT PROCESS IS THE INJECTION FOR AND MAYBE I WILL TRY.. I COMMUNICATE WITH. CUSTOMER SERVICE FROM MY STEAM AND HE SUGGESTED COMING TO INDIA. I WENT TO INDIA FOR TREATMENT TO DO THIS STEM CELL THERAPY AND I HAVE TRIED TO GIVE IT TO THE WORLD TO GO TO INDIA TO TRY IT TODAY AND HOPEFULLY, IT WILL WORK. I SUGGEST TO OUR FRIENDS OR RELATIVES IN INDONESIA, THAT IF YOU REALLY FEEL LIKE YOU HAVE RETINITIS PIGMENTOSA, MAYBE YOU CAN TRY IT IN INDIA. So, WHEN YOU RECOMMEND SOME EVEN IF THEY HAVE THE SAME PROBLEM-SOLVING IN THEIR CENTER. OK, SO THANK YOU ”

OUTCOME RETINOPATHY PATIENTS

Jimmy

39 years old, UK, 2016

Jimmy had retinopathy issue from past 3 years. After undergoing stem cell treatment with SCCI in India, the vision of Jimmy improved after transplantation of the cells. Overall, his improved by about three lines on the standard visual acuity chart.

Kenza

59 years old, Canada, 2017

Kenza was blind in the eye she had been treated for. A month after the stem cell therapy with SCCI, her vision had improved by 10 lines and she could do her fashion designing work again. She could use her computer or read a book comfortably.

Smith

60 years old, Australia, 2019

Retinopathy caused Smith's vision to deteriorate over quite some years to the point where he had to resign from his dream job of a fashion designer. He came to India for stem cell treatment with SCCI and was very pleased with the treatment results.

Mr. Paul

75 years old, US, 2018

Mr. Paul and his wife both are really pleased with the SCCI's professionalism. They came to India for stem cell treatment of retinopathy and after the treatment with SCCI; they were very satisfied with the results.

Marie

58 years old, UK, 2020

After undergoing stem cell procedure with the assistance of SCCI's team, in which stem cells were extracted from bone marrow in her hip were injected into a different region in each eye, she progressively recuperated some of her sight which was lost because of retinopathy.

Brian

20 years, USA, 2021

My child was diagnosed with retinal degeneration at the age of 15. And we were looking for a treatment to help my son recover from retinopathy. But couldn't be able to find an appropriate treatment process for him. Then we came to know about Viezec Stem Cell Institute, which offers stem cell therapy for multiple disorders, including retinopathy. We have had a great experience with them. The whole team is very compassionate and approachable. They helped my kid through the treatment process. I am very grateful to them and recommend this therapy to everyone who needs a safe, reasonable, and effective treatment.

Janet

40 years, Italy, 2021

Janet was diagnosed with pigmentary retinopathy, a disorder which accelerates the degeneration of the visual arena. Patients with this ailment experience snowballing loss of vision and might feel as if they are looking through a telescope because of the restricted range of vision. After a lot of research, she decided to fly to India for stem cell therapy for retinopathy. She bid thanks to all those who took care of her here in the hospital and she wishes them good health and wisdom to continue this pleasant project anticipated by many people, who are lack of solutions. After the treatment, her condition has improved a lot.

Tara

28 years, Canada, 2022

Hi, I am Tara, and I visited India for stem cell therapy to treat my condition. Over the past few years, I have been suffering from retinopathy, and my doctor recommended me to undergo stem cell treatment via Viezec Stem Cell Institute. So, I researched about it and found Global Stem Cell Care which offers this treatment. At the hospital, I received professional care throughout the whole process from the team. And after the treatment, I can observe lots of improvements in my state. I am very thankful to all the staff of Viezec for supporting me during the whole procedure.

Iqbal

32 years, Saudi Arabia, 2022

I was diagnosed with pigmentary retinopathy, which affects my visual zone. And over time, I started experiencing vision loss in my left eye. After much research and searching online, I learned about Viezec Stem Cell Institute, offering stem cell therapy which proves to be a safe and effective treatment for my condition. Then I decided to fly to India for the further procedure. Now, after the treatment, I can observe many improvements in my vision. I want to thank all the team who cared for me at the hospital.

PATIENT TESTIMONIALS

PATIENT NAME	AGE	DISORDER	COUNTRY	YEAR OF TREATMENT	FOLLOW-UP FEEDBACK
Ejaz Khan	45	Sports Injury	Afghanistan	2017	Shakes in the hands gone. Able to get out of the wheelchair.
Berley	6	Autism	Canada	2018	Speech and cognitive abilities improved. Balance amended while sitting.
Justin	32	Muscular dystrophy	Brazil	2017	Balance and feet strength improved. Was able to get out of wheelchair unaided.
Mohd. Kasim	72	Type 2 Diabetes	Kuwait	2019	100 % bladder control was there and patient's sugar levels were under control.
