

# **HAPPY SKIN BURNS PATIENTS**

# OVERVIEW

Burn is a type of injury that affects the skin and other organic tissue of the body chiefly because of heat, radiation, electricity and/or fiction. Moreover, injuries are caused by unremitting exposure to UV radiations, chemicals fumes as well as respiratory mutilation that occasions from smoke inhalation can also considered as burn injuries.

Burns are amid the most common domestic injuries. Even internationally, burns are a serious public health concern.

# OUTCOME SKIN BURNS PATIENTS

# PATIENT STORIES

**Cathy**

**29 years old, Brazil, 2021**

Cathy, 29 years old, was having skin burns on her body, mainly on her thighs. When she was a kid, she was playing near the fireplace in her home and accidentally, she fell off and the scorching charcoal fell on her thighs. Since then, she had been living with those burn marks. To get rid of them, she decided to contact Stem Cell Care India for her treatment via stem cells. She is really happy as her condition improved after this treatment.

**Pyush Kanwal**

**30 years old, Mumbai, India, 2022**

I'm a burns victim and I tried the stem cell treatment that is said to promote healing of the skin. The treatment is applied to the affected area. The results were amazing, my burns healed in a very less time and I saw a huge improvement in the scars. The treatment costs are also not bad for the kind of results I got. So if you're looking for a treatment for burns, I suggest you try this one.

**Daniel Igon**

**25 years old, USA, 2020**

I had a skin burn on my hands due to an accident and was about to spend a fortune on conventional treatments. A friend suggested that I try out a stem cell treatment that was affordable and effective. My burns were healed in a couple of months and now I do not have any scars to remind me of the accident.

**Chandrabhan Ghoshal**

**2.2 years old, Bangal, India, 2021**

I had second-degree burns and when I decided to go to the hospital, they recommended a stem cell treatment, which is less painful than the normal treatments. I decided to get it. It has been a few months and I have been totally cured. This really is an amazing method and the staff at Stem Cell Care India was also so amazing. I thank them all.

# PATIENT STORIES

## David Malone

40 years old, Canada, 2021

Hello, I am David, and I suffered terrible burns all along my left hand during a barbeque. I did not realize that the lighter fluid bottle I was using was leaking and had leaked all over my sleeve, and when I started the fire, my whole sleeve was in flames. Paramedics came, and my condition stabilized quickly after the incident. I was kept under many medications to soothe the immense pain I was in and given a lot of therapy to help me recover from the incident. While my hand healed in a few months, it had terrible scarring all over it. The doctor told me that it would take time for them to subside into the skin and be even with my skin tone. But I was not satisfied I wanted a way to get the scars gone as soon as possible. So I started seeking medical help over the internet, learned about Stem Cell Care India, and communicated to them about my predicament. Eager to help, Stem Cell Care India told me about how Stem Cell Therapy could help reduce inflammation and the skin's rehabilitation—motivated to try the therapy, I booked my appointments and traveled to India. In India, my Treatment was done with utter care, and I was subjected to the best possible Treatment. My hand recovered and got better after the Treatment.

## Niran

45 years old, Thailand, 2021

Hello, I am Niran from Thailand, and it was while celebrating the new year I suffered a nasty burn from a firecracker. Although I sought medical supervision as soon as possible, and my wound healed quickly after the medical Treatment, I was left with severe scars on my body. These scars improved over time with the help of therapy but being on my thigh, they restricted my movements and hampered my range of movements. Moreover, the skin that resurfaced above my scar was less stretchable and caused me pain whenever I stretched my leg. While seeking a cure that could help bring the elasticity of my skin back, it was then that I got to know about Stem Cell Care India and communicated to them regarding my predicament. They told me how Stem Cell Therapy could help my wounds and also help in bringing back the elasticity of my skin. So I booked my Treatment and came to India for my Treatment, I must say I was taken care of in the best way possible, and my Treatment was done entirely according to my comfort without any issues. So my skin condition is better now, thanks to Stem Cell Care India.

# PATIENT TESTIMONIALS

PATIENT NAME	AGE	DISORDER	COUNTRY	YEAR OF TREATMENT	FOLLOW-UP FEEDBACK
Ejaz Khan	45	Sports Injury	Afghanistan	2017	Shakes in the hands gone. Able to get out of the wheelchair.
Berley	6	Autism	Canada	2018	Speech and cognitive abilities improved. Balance amended while sitting.
