PATIENT STORIES

Sophie Mobsby

42 years, Australia, 2021

I've been wanting to look younger for a while now and a friend recommended stem cell treatment so I decided to try it out. I was looking for an affordable treatment that could give me a younger look and I found it. I tried it out and I'm really impressed. I look years younger! So happy with the results!

Niam Lewis

37 year old, News Land, 2020

I tried stem cell therapy and it was amazing! It actually helped me get the better version of myself back that was slowly vanishing. I feel amazing. I wish I had the procedure done before. SCCI thank you for helping me get my youth back.

Kathleen L Brown

40 years, USA, 2022

I did not realize that I would look so amazing after the procedure. I've always been worried about the cost and effects of the treatment but the results were worth it. I'm more confident now about my appearance and my looks are way fitter. Thanks to stem cells

Cathy

53 years, Belgium, 2021

Cathy, 53 years, came to India for stem cell treatment to look fit. She felt that this treatment gives excellent outcomes, is pain-free and there is no risk. These are the words that she would like to use to set forth her experience at Stem Cell Care India. She contacted SCCI team last October and one of the patient managers took her medical details about the treatment and after discoursing it with their crew of medical specialists, he contacted Cathy back and clarified her in details about the process and the treatment procedure accompanied by the costing and other essential particulars about the stem cell therapy and its consequence on the fitness process. They also shared their treated patient's victory stories and case studies with Cathy which enhanced her confidence in getting the treatment at Stem Cell Care India. Her strength, her lifestyle and health have transformed expressively. She owes the outcomes and success of her stem cell therapy to look fit to the medical specialists and the whole crew of SCCI, India.

PATIENT STORIES

“
Mathew

48 years, Zurich, 2021

I am Mathew from Zurich. I used to spend over 1000 – 1200 pounds once-a-month on anti-aging and fitness supplements and creams and numerous skin products and sundry massage therapies; however, I got no positive upshots out of it. Now as those days are past, expending a only a few amount of money on stem cell therapy once at Stem Cell Care India has already saved me heaps of money. The effect of the therapy on my emotional and mental state, stress, energy level and bodily wellbeing, is outstanding and even truthfully great. I am still getting the advantages out of the therapy and experiencing the enhancements in my body. Currently, I look and feel fresher and younger. I have an enormous amount of energy for work and other physical goings-on in everyday routine life. Thanks SCCI!

“
Jay

40 years, Canada, 2020

I would like to express my thankfulness to the team of StemCellCareIndia for managing my travel to India. I was able to fulfill my aim of keeping my body fit and fine with their treatment.

“
Angela

35 years, England, 2020

Ms. Angela, a 35 years young female patient from Sweden contacted StemCellCareIndia for diagnoses and treatment for her ailment Fibromyalgia to look fit again. The doctors here analyzed her condition comprehensively and recommended that the reason of fibromyalgia might be multifactorial, and mechanical complications of the Central Nervous system or spine are presented as an element in producing fibromyalgia syndrome in this patient. This female patient from Sweden suffered from chronic extensive musculoskeletal pain which was reported in all four quadrants of the body as well as the lower back with the incidence of multiple myofascial tender points. It had been present for four years and in specific for at least one year. The pain was termed as continuous and dull, normally coming from the muscles and at times it was intense burning. It was quite often shoddier in the morning and muscle groups that are used repeatedly might have hurt more. The pain augmented with physical activity, cold or damp weather, nervousness and tension. She often woke up exhausted, even though she seemed to get abundant sleep. Besides that, she grumbled of chronic drowsiness, morning rigidity, sleep problems, serious headaches, constipation, numbness in the hands and feet, unhappiness and apprehension. The quality of life and diverse stages of psychosocial functions worsened owing to the symptoms. These made her doubtful about the bodily health.

PATIENT STORIES

“
Henry

48 years, USA, 2020

I was diagnosed with rheumatism several years ago and more than 17 years ago, my right ankle had to be bonded surgically. Since then, I have had an ulcerated ankle with severe pain. Throughout these years, 6 bone splitters broke out of the affected leg; the bone splitters poked excruciatingly into the ulcerous tissue and my foot was continuously swollen. No tangible diagnosis was ever made, it was attributed on my rheumatism and I was just given stronger painkillers and had to wear orthopedic boots, because the distorted ankle since and I walk on a tendon. My suffering can barely be described and the pain that I had to endure, regardless of the potent painkillers robbed me of any hopefulness. The leg was ulcerated up to the knee by this time. I could no longer ride a bike or drive. The hospital work that I had taken up after the death of my wife, which was very imperative to me, became progressively more challenging until finally I had to give it up totally. I could no longer partake in normal life, sat around feebly in my wheelchair, and just kept falling asleep, sedated from morphine and other medicine. Then, we heard about stem cell treatment. It sounded too good to be true, but it was our last optimism and there were no other alternatives. My liver and kidneys would not be able to handle the medicine much longer and my leg was close to bursting open. Today, we view it as a sign from God.

“
Sarah Louis

45 years, England, 2022

Hi, I am 45 years old Sarah Louis from England, and I visited India with my parents for stem cell treatment. I've wanted to look younger for a while now, and a friend recommended stem cell treatment through Stem Cell Institute, so I decided to try it out. She also told me that the treatment process is very safe and effective and comes under the budget as I was looking for an affordable treatment that could give me a younger look. So, I tried it out, and I'm impressed.

“
Hamidul

44 years, Iraq, 2020

Hi, I am Hamidul resident of Iraq. And I underwent stem cell therapy to look fit via Stem Cell Institute. The results of stem cell therapy were terrific. It helped me get my better version

PATIENT TESTIMONIALS

PATIENT NAME	AGE	DISORDER	COUNTRY	YEAR OF TREATMENT	FOLLOW-UP FEEDBACK
