Anti Aging

Mr. Beckson

64 years old, Australia, 2016

Mr. Beckson came for stem cell treatment for anti-aging with SCCI on 12th September 2016 after he started to feel exhausted quite often in day-to-day activities. After the treatment, he started feeling more energetic and less fatigued.

Carla

59 years old, Canada, 2017

I am Carla Hook and my age is 59 years old. I like to unstintingly thank the team of StemCellCareIndia to give me my young-looking appearances back with their innovative approaches to stem cell therapy.

Khalid Ahmed

58 years old, Saudi Arabia, 2020

The stem cell anti-aging process at SCCI was easy; the staff of the hospital was very helpful and pleasant. The place is impeccable for relaxation. Thank you for all your efforts SCCI!

Katie

69 years old, US, 2019

I am 69 years old woman from the USA and I came to the Stem Cell Care India for stem cell therapy for anti-aging. After the treatment, I got rid of my sleep problems, backache issues, migraine, and other age-related problems that I had been struggling from a very long time.

Mr. Peterson

66 years old, UK, 2018

After the treatment of stem cell therapy for anti-aging, Mr. Peterson gained oodles of energy and has a high spirit progressively. The shiver of his hands has been much released and it is easier for him to go to sleep and the sleep quality has also improved.

Feel Fit

Lilly Smith

48 years old, UK, 2021

Hello, I am Lilly Smith, and with age, I had started to feel a bit sluggish with the pace of my life. I always thought that I was slower than I was before and felt a bit ill all the time. I undertook medical supervision and underwent many tests; they all came out fine, and I did not have any disease. Still, I felt as if I had flu or any other problem because I was slow and felt weak, and did not have any motivation to do anything. While seeking medical treatments which could help me, I found out about Stem Cell Care India and their Stem Cell Therapy treatment for my health. Motivated, I communicated to them, and they told me how the Treatment would help me and gave the total estimate. I booked my appointments and traveled to India for the Treatment. After the Treatment, I felt fit and fine and have witnessed many changes in my life.

Gurnaj Chadda

38 years old, India, 2019

Hi, I am Gauri, and I underwent stem cell treatment to feel fit. Before that, I invest lots of money in supplements, other fitness treatments, and many more. However, I look very fit physically, but I can't feel that way. So, one day I was browsing for the same, and I learned about stem cell therapy via Stem Cell Institute. Now, after the treatment, I can observe the positive changes in my body. I'm happy that I choose the stem cell team.

Liam

40 years old, France, 2022

Hi, I am Liam, and I came to India for stem cell treatment with my parents. I was always looking for a treatment that could give me back my youthful look. I have tried many treatments and products in the past, but none of them have worked. So, I was looking for a treatment that would help me get rid of my wrinkles and saggy skin and give me a younger look, and I found it! I have undergone stem cell therapy, and I have started to notice that my skin is tighter and firmer than before.

Look Fit

Sophie Mobsby

42 years, Australia, 2021

I've been wanting to look younger for a while now and a friend recommended stem cell treatment so I decided to try it out. I was looking for an affordable treatment that could give me a younger look and I found it. I tried it out and I'm really impressed. I look years younger! So happy with the results!

Niam Lewis

37 year old, News Land, 2020

I tried stem cell therapy and it was amazing! It actually helped me get the better version of myself back that was slowly vanishing. I feel amazing. I wish I had the procedure done before. SCCI thank you for helping me get my youth back.

Kathleen L Brown

40 years, USA, 2022

I did not realize that I would look so amazing after the procedure. I've always been worried about the cost and effects of the treatment but the results were worth it. I'm more confident now about my appearance and my looks are way fitter. Thanks to stem cells

Cathy

53 years, Belgium, 2021

Cathy, 53 years, came to India for stem cell treatment to look fit. She felt that this treatment gives excellent outcomes, is pain-free and there is no risk. These are the words that she would like to use to set forth her experience at Stem Cell Care India. She contacted SCCI team last October and one of the patient managers took her medical details about the treatment and after discoursing it with their crew of medical specialists, he contacted Cathy back and clarified her in details about the process and the treatment procedure accompanied by the costing and other essential particulars about the stem cell therapy and its consequence on the fitness process. They also shared their treated patient's victory stories and case studies with Cathy which enhanced her confidence in getting the treatment at Stem Cell Care India. Her strength, her lifestyle and health have transformed expressively. She owes the outcomes and success of her stem cell therapy to look fit to the medical specialists and the whole crew of SCCI, India.

Hair Loss

“
Brittany Cummings

34 years old, Pennsylvania, 2020

I was looking to overcome my hair loss and came across this. Stem Cell Treatment for Hair Loss is a proven method to combat hair loss and maintain a healthy scalp. I'm sure glad I found out about this.

“
Ayesha Ayubi

29 years old, Pakistan, 2019

I was desperately looking for a natural, affordable, and long-lasting solution to my hair loss problem and I found stem cell therapy. The treatment is painless and the results are very long-lasting. I feel so much better about myself now. I can't thank SCCI enough.

“
Raghav Rujjena

48 years old, Bihar, India, 2016

I have tried other products for hair loss and was left disappointed. I was at my wit's end when I came across this. I decided to give stem cells a try and within a few days, I noticed a difference in the amount of hair I was losing. It has been over a year and I have to say my hair loss has stopped completely. I am so happy I found this therapy and I would recommend it to anyone who is suffering from hair loss.

“
Mr. John

39 years old, USA, 2021

Mr. John, a 39 year old, professional frantically wanted to reinstate his frontal hairline back. In a very young age, he had misplaced majority of his hair from anterior and crown zone of his scalp. Like countless of the individuals out there, his rare hair loss was a reason of social discomfiture to him. In his preliminary phase, he tried a lot of self-treating options! He tried quite a lot of shampoos, supplements and alternate treatment options of conceal, which eventually made him more disheartened with the upsurge in hair loss; this forced him to come to us i.e. Stem Cell Care India and opt for the hair restoration with stem cell treatment. Post-therapy, he was very happy to see his crowning glory returning back to him. He experienced a lot of improvement in his life after getting this treatment at SCCI.

Major Skin Abrasions

Alex

28 years, Portland, 2020

I am Alex. My age is 28 years and I have been suffering from major skin abrasions. I have had chronic pain for perhaps 6 years now, perhaps a bit more. It has been really horrible. Getting used to pain is certainly not at all fun. It has affected everything in my life. I feel real pain when I walk upstairs. Walking lengthy distances is also a bad news and I can't ride bike for too long as well. Then I underwent stem cell therapy and I experienced a lot of improvement. Thanks Stem Cell Care India team.

Nimisha

32 year old, Assam, 2022

Nimisha from Assam came to Delhi for the treatment of major skin abrasions via stem cell therapy. She is really impressed by the way the team of SCCI handled her case. I am essentially pain-free; it is like night and day now. I can't believe that I am being treated. I really appreciate the way the team of Stem Cell Care India showed professionalism and treated me so well. Thank you

Nimita

26 years, MP, India 2019

Hello, I am Nimita. I got third-degree abrasions during a freak accident on the road; even while the injury healed adequately, my skin felt itchy and tight on seeking medical help, and I learned I had suffered Third-degree abrasions. After a heft time, my scars were gone, but they had left behind marks, and I had lost elasticity in my skin. I was troubled as it used to hinder my usual gait, and the patch of healed skin used to itch terribly. While sharing the problem with one of my friends, she told me about stem cell care in India. And I, without delay, scheduled my appointments; they ensured my conditions were taken care of immediately. Within a short time, my skin's elasticity got better, and the scar tissues also started to vanish.

Mike Teeve

16 years, London, 2021

Hi, my name is Mike, and I Live in London with my parents. One day when I was playing with my brother in the kitchen area, I accidentally hurt my elbow. I was left with a large and deep wound on my elbow.

Skin Burn

Cathy

29 years old, Brazil, 2021

Cathy, 29 years old, was having skin burns on her body, mainly on her thighs. When she was a kid, she was playing near the fireplace in her home and accidentally, she fell off and the scorching charcoal fell on her thighs. Since then, she had been living with those burn marks. To get rid of them, she decided to contact Stem Cell Care India for her treatment via stem cells. She is really happy as her condition improved after this treatment.

Pyush Kanwal

30 years old, Mumbai, India, 2022

I'm a burns victim and I tried the stem cell treatment that is said to promote healing of the skin. The treatment is applied to the affected area. The results were amazing, my burns healed in a very less time and I saw a huge improvement in the scars. The treatment costs are also not bad for the kind of results I got. So if you're looking for a treatment for burns, I suggest you try this one.

Daniel Igon

25 years old, USA, 2020

I had a skin burn on my hands due to an accident and was about to spend a fortune on conventional treatments. A friend suggested that I try out a stem cell treatment that was affordable and effective. My burns were healed in a couple of months and now I do not have any scars to remind me of the accident.

Chandrabhan Ghoshal

2.2 years old, Bangal, India, 2021

I had second-degree burns and when I decided to go to the hospital, they recommended a stem cell treatment, which is less painful than the normal treatments. I decided to get it. It has been a few months and I have been totally cured. This really is an amazing method and the staff at Stem Cell Care India was also so amazing. I thank them all.

Vitiligo

Madelyn J. Drennan

24 years old, US, 2019

I've been looking for a safe and effective treatment to make my vitiligo less noticeable and I found it. Stem cell therapy is a proven treatment to improve the condition of vitiligo and I'm amazed by the results. Some of my white spots are starting to get darker and my skin is becoming much smoother. I would highly recommend this treatment for people with vitiligo..

Nichole Moeller

29 years old, Germany, 2020

When it comes to skin conditions, we're always looking for a treatment that will deliver visible and efficient results. After the stem cell therapy, I was able to see the results in just the first few weeks. It was a lot less painful than what I had thought it would be and it's a lot safer than other methods that I've tried so far.

Animesh Malohotra

20 years old, Jaipur, India 2021

I've been suffering from Vitiligo for a while now, and it's been a real pain. It's gotten to the point where I'm so embarrassed to go out in public or even to my own job because of how horrible it looks. I really didn't think there was any other option. But then I heard about stem cell therapy and I figured it was worth a shot. I was able to get in touch with a leading stem cell expert and I had the procedure done. The results were amazing and I was finally able to feel confident in my own skin again!

Abdur Rahim

15 years old, Onam, 2020

At the age of 15, I was diagnosed with Vitiligo. My family was distraught and could not find the appropriate treatment to cure my condition. One day when my mother was browsing about the same
