ALS/MND

Patrick

73 years, Germany, 2019

Patrick who came to India with his got cured of ALS permanently after undergoing stem cell therapy with Stem Cell Care India. He can now live a normal life again after so many years and is now free from this deadly disease.

Sebastian

32 years old, US, 2016

Sebastian was diagnosed with Motor Neuron Disease in 2015. He chose to receive stem cell treatment with Stem Cell Care India in New Delhi and is absolutely happy with his choice as his condition improved a lot after the treatment.

Meharama

38 years old, Iraq, 2017

I was diagnosed with ALS (Amyotrophic Lateral Sclerosis) also known as MND (Motor-neuron Disease) or in November of 2016. I was told I had a year to live, no more than two at best. I decided to undergo stem cell treatment with SCCI in India. I was very happy with the results I got after the treatment. The doctors there were very helpful and encouraging.

Kristine

40 years, Germany, 2020

I am so happy today as I can live a normal disease-free life now. Thanks to Stem Cell Care India for treating me so well.

Jacob

35 years, UK, 2018

I was diagnosed with motor neuron disease in 2017 after some tests. I came to India to undergo stem cell treatment for the same with Stem Cell Care India. I am doing completely fine now. My symptoms have also improved and I am very thankful to the team of SCCI.

Ataxia

Naina

29 years, Sikkim, 2016

Naina undergoes stem cell treatment for Ataxia and would like to recommend it to everyone with similar conditions. She underwent stem cell therapy with Stem Cell Care India and is very happy and contented with the results she got.

Triana

47 year old, Canada, 2017

Triana underwent stem cell treatment and has experienced improvements ever since. She was diagnosed with ataxia at the age of 42. She decided to contact the doctors in SCCI in India. They guided me well once I visited India for the treatment. I am free of this disease now.

Andrew

64 years, US, 2020

In January 2020, Andrew was diagnosed with Ataxia. He came to India in March 2020 for his stem cell treatment with Stem Cell Care India. After the treatment, now, he is able to walk around self-reliantly without the need of assistance.

Juana

35 years, Belgium, 2018

Following this comprehensive treatment package with Stem Cell Care India, Juana saw quite a lot of substantial improvements in her condition as she suffered from Ataxia from 2016. She had more controlled balance, less exhaustion and was able to walk quicker than before she began the stem cell treatment for ataxia with SCCI.

Rosemary

44 years, UK, 2019

Rosemary has been suffering from Ataxia for a lengthy time; her daughter and husband were keenly eyeing for a health centre to help improve her condition which was deteriorating. They finally found a solution when they discovered Stem Cell Care India. They are glad to receive the treatment from here.

Brain Injury

Jalluce

33 years, Japan, 2022

My mother, Mrs. Jalluce from Japan was suffering from a traumatic brain injury. After several failed treatment attempts in our own nation, we decided to opt for stem cell treatment in India. At Stem Cell Care India, the crew not only offered stem cell therapy to my mother but also they provided physiotherapy, occupational therapy, speech therapy and rehabilitation which enhanced the efficiency of the stem cells once they are administered into her. I am so contented with the help of the staff of SCCI and outcomes of the treatment provided by the whole team of SCCI, India that I have already vouched for their facility to my relatives and friends back in my home nation. The superlative part about them is that they offer first-rate superb stem cell treatment at a very cost-effective and low cost which can be even managed by the individual dealing with financial crisis. I really want to thank the whole team of treating my mother.

Jaheed

59 years, Pakistan, 2021

My aunt life went miserable when she was hit with a brain injury. Then, I insisted upon availing the medical facilities of StemCellCareIndia. Thankfully, she got back in good health again.

Katy

10 years, US, 2022

Katy was born at her mother's 27-week pregnancy. The weight was 1.56 kg at birth time. She stayed in an incubator for numerous days. The breathing, heart rate and sucking touched normal level. The patient suffered from lung infection when she was 3 months old. She had her entire body turn purple and experienced breathing trouble. Her breathing and heartbeat stopped for 7 minutes. After cardiopulmonary resuscitation, the breathing and heart rate was reinstated to normal. After 15 weeks of treatment, her mother found out that the movement of Katy's limb was different with other. There was no vigorous movement.

After admission at Stem Cell Care India, Katy received pertinent examinations. The patient received treatment for nerve regeneration and to stimulate stem cells in vivo. The patient received treatment to improve the blood circulation so as to upsurge the blood supply to the impaired nerves and also to nurture the neurons. She also received treatment to improve her immunity. This was pooled with rehabilitation training. The muscle tone of both lower limbs has abridged to normal level. The internal spin of toes and slight tiptoe condition has been assuaged. The flexion of knees has been relieved. Both lower limbs can be stretched improvingly. Left knee joint can be flattened totally. Right knee can be straightened with slight help. The patient's condition has upgraded.

Multiple Sclerosis

Ariel

38 years old, UK, 2016

Ariel was diagnosed with Multiple Sclerosis (MS) in 2012. After the stem cell treatment with SCCI, she is doing very well now and her condition has improved a lot.

Adnan

32 years old, Pakistan, 2017

After undergoing MS stem cell treatment in India with SCCI, Adnan was particularly very impressed with the amenities and staR members who attended to him in India. It was a positive and very different experience than the one he had back home in the Pakistan.

Mr. Reddy

4 years old, Karnataka, 2019

Mr. Reddy underwent stem cell treatment to treat multiple sclerosis and made a lot of improvements. He is very thankful to the team of SCCI for supporting him well.

Robert

45 years old, Kenya, 2020

Robert had been wheelchair bound for the last 3 years due to the debilitating symptoms of MS. He came to Stem Cell Care India in hopes of changing his life for the better. After the treatment, his condition has improved amazingly.

Usmani

29 years old, Saudi Arabia, 2018

During his stay at the world-class facilities in India arranged by SCCI, Usmani received physical therapy, occupational therapy and aquatic therapy as part of his stem cell treatment plan. This was in combination with the stem cell injections to treat multiple sclerosis.

Stem Cell Care
India

“

Anshu Bharti

32 years, New Delhi, 2020

I am very thankful to all the doctors and the complete team of Stem Cell Care India for providing me with such a great opportunity for stem cell therapy for neuropathy in India. My pain has decreased to a great extent and as per the last diagnosis, my recovery speed has increased. I would like to recommend this treatment to every person in need and say that it is less painful and makes one feel secure and better. Also, supportive therapies are a great add-on too.

“

Marco Wurfel

57 years, Nürnberg, 2021

I'm so thankful for stem cell treatment for neuropathy in India. I had suffered from severe neuropathic pain for multiple years now and nothing worked to help me recover from this suffering. I was almost ready to give up when I heard about stem cell therapy. The treatment has been amazing and I'm finally able to take a breath of relief. In fact, I feel a lot better than before

Neuropathy

“

Rolf Honegger

43 years, Zürich, 2022

I was looking for a stem cell treatment center in India and I found this. Stem Cell Care India was a great clinic as it proved to me its specializations in natural and non-surgical stem cell treatment. Their treatments stimulate the body's natural healing processes for building and repairing damaged cells, which in turn helps your body restore itself. They have over years of experience and have treated patients from various countries. I thank their staff for taking such sweet care of me during the treatment and also doctors who helped me understand the working of treatment to assure me that this is the most reliable method.

SMA

Jamie 24 years, USA, 2022

Jamie was exhibiting visible signs of SMD since the year 2009 and he was lastly diagnosed spinal muscular dystrophy in 2011. Despite physical therapy and medicines he was not very contented with the outcomes he had accomplished so far. He decided to settle on stem cell therapy in India via SCCI. After the treatment, he experienced lots of health improvement. Following these improvements, they decided to go ahead with another round of cell therapy for muscular dystrophy treatment in India in 2013 September..

Nelson 29 years, Kenya, 2022

Mr. Nelson, 29 year old, who had been living with Spinal Muscular Dystrophy for all his life, was determined not to let the ailment take a toll on him. He was only a mere 4 years old when he was inadvertently discovered to have marks of muscular dystrophy, during a routine health inspection when his father stated to the doctor about his trouble in getting up when sitting on the floor and his propensity to often fall while running. The doctor recommended a muscle biopsy and the outcomes sent a wave of misery in the heart of his parents when it confirmed the analysis of spinal muscular dystrophy. His father then decided to take him to India for stem cell therapy and contacted SCCI. It has been 2 sessions of the treatment now and Nelson and his father are quite happy with his improving condition.

Suraj 36 years, India, 2022

Hi I am Suraj father of Vivaan Thakur. He was diagnosed with spinal muscular atrophy, and I was shocked and disheartened. So I consulted different doctors about his state, and at least one of my friends found out about Stem Cell Care India in India and suggested me to visit there. The whole staff helped us and got my son treated conveniently and at a very reasonable cost. And currently, he is doing very well in improving.

Stroke

Marie

63 years old, UK, 2016

3 months back, I experienced a stroke on my head and I fell cataleptic on ground. After that epileptic seizure followed. I was brought back to life with the continuous and expert efforts of the experts at StemCellCareIndia with stem cell therapy.

Paul

35 years old, South Africa, 2017

Paul suffered from weakness on the right side of his body and also experienced trouble in talking while he was coming back from office. A brain MRI scan displayed that he had an ischemic stroke because of decreased blood supply to the brain. He then underwent stem cell therapy in India with SCCI and experienced a lot of improvement in his condition.

Nicole

51 years old, Canada, 2020

When Nicole and her husband decided that old-style therapy wasn't doing enough to help her in her retrieval from a stroke, they found SCCI. Since being accepted and admitted, she has received stem cell treatments and has experienced magnificent outcomes.

Peterson

42 years old, US, 2018

After a couple of surgeries and traditional treatment sessions following a stroke, Peterson and his wife decided to fly to India for stroke stem cell treatment. The team of SCCI had arranged to book appointments with the best stem cell therapy doctors in India. He is very thankful for the support SCCI offered.

Salma

43 years old, Afghanistan, 2019

When Salma suffered a stroke, her life was severely changed and she had a tough time with everyday activities. After the stem cell treatment in India with SCCI, the patient has now recouped her limb power, has shown a substantial improvement in speech and is also safe from the hazard of strokes.

Alzheimer's

“
Imran

63 years, Saudi Arabia, 2021

My mother was suffering from Alzheimer's disease and could find relief with any treatment. I would like to appreciate the team of StemCellCareIndia to make my mother fit and healthy again.

Paul
57 years, UK, 2021

Paul is appreciative and thankful to the entire team of Stem Cell Care India for at least trying to put an end to the disease of Alzheimer's via stem cell treatment. Mr. Paul from UK is an energetic young professional, who experienced the punitive realities of Alzheimer's disease and loss of flexibility in a very tough way. More than 8 years ago, Mr. Paul was diagnosed with a disease known as Alzheimer's. It was a game changer for the whole family that 57 years old amusing and fun-loving individual like Mr. Paul unexpectedly stopped frolicking with his grandchildren, lost his tolerance and is in necessity of relentless support and care. It was truthfully a blessed day when he began probing for potential treatment choices for his condition and reached Stem Cell Care India.

“
Joseph
70 years, Nigeria, 2020

I am Joseph from Nigeria 70 years old person suffering from Alzheimer's disorder, by profession i was teacher 10 years back and Gradually I was losing my ability to think clearly and remember simple things like names, dates and current information. Even recognizing my relatives was becoming hard. Life was becoming hard. Then one day my son informed me about stem cell treatment for Alzheimer's disorder. He contacted to Stem cell care India team and got complete detail about stem cell therapy and clarity which made me feel safe. After a month we came in India for stem cell therapy it's total 1 week program in which doctor starting the procedure of stem cell therapy and rehabilitation program and now i can seen gradually improvement in my condition.

Charles

53 years, Australia, 2019

Charles Stemen from Australia came to India for his mother's stem cell therapy in India for Parkinson's disease. My mother at the age of 53 years was detected with Parkinson's disease and her symptoms were very prolonged and throbbing to watch. She becomes reliant on others for her everyday activities. With time, her condition began giving her difficulties in smiling; swallowing, speaking and her face became expressionless. She was not able to think or remember much. Then after scores of research and discussion, I found that stem cell therapy for Parkinson's disease appeared like a solution to her concern. We were not able to undergo it in Australia because of the financial restraints, however, I found Stem Cell Care India where they guaranteed us the finest stem cell treatment for Parkinson's at a very cost-effective cost. I am happy that my mother underwent stem cell therapy for Parkinson's disease in India and now her condition is also refining a lot. Before and after the treatment, we got admirable service and support from the entire team of SCCI. Thanks!

Thomas

60 years, USA, 2020

Mr. Thomas Jones 60 years old suffering from Parkinson Disease was not able to walk properly, rather he walks a little distance and falls down. As time passes, his voice getting crumbling due to which other person was unable to understand him.

His voice was not clear. After few weeks he got a severe constipation, day by day he was having problem in his own work which should be done by him.

Then, he took stem cell therapy which proved to be beneficial for him. Now after few month, he don't fall during walking, he started speaking some of the word clearly. He is very Thankful for stem cell care India.

Parkinson's

Angela

59 years, UK, 2021

Angela, my 59-year-old mother from UK showed the symptoms of Parkinson's disease and then I contacted numerous top medical specialists and followed their opinion and instructions. However, Parkinson's is a very chronic progressive ailment and with the progress of the ailment my mother's condition started weakening progressively and her medicines also increased which led to snowballing side-effects. When I lost all the optimism and confidence in treating her condition, one of my friends recommended me to opt for stem cell therapy treatment in India. After a speedy exploration about the facilities offering stem cell therapy in India, I came across Stem Cell Care India and they helped me in every facet related to my mother's treatment planning in India. By God's grace, within a petite period of time after stem cell therapy, my mother was more fluent and watchful, being more mobile and started intermingling in a better way than her prior condition. Thanks SCCI!

Autism

“
Bobby

4 years, Canada, 2016

4 years old Bobby from Canada, who had been suffering with Autism Spectrum Disorder, had undergone stem cell therapy in 2016. He attained some dramatic results and his condition improved.

“
Paarth

3 years, West Bengal, 2018

Paarth was detected with mild intellectual disability at the age of 2. He exhibited signs of aggression, hyperactivity, loud noises, height, fear of animals, disturbed sleep patterns, lack of social interaction and extraneous emotional behavior. Her parents approached Stem Cell Care India for consultation about stem cells and after the treatment, Paarth condition improved drastically.

“
Jennifer

6 years, Australia, 2017

Jennifer with autism showed loads of improvement after undergoing stem cell therapy at Stem Cell Care India. Her life has now wholly changed and she has matured into a well-organized girl.

“
Mary

4.5 years, UK, 2019

Post cell stem treatment that involved a number of sessions, Mary showed progress in her condition. She came here with her parents and they are well satisfied with the treatment they received at SCCI.

“
Zen Hieng

3 years,ailand, 2020

Zen faced trouble in expressing himself, inability in recognizing alphabets and a different behavioral pattern. His mother came to India and he underwent stem cell therapy for autism at SCCI. He is doing very well now.

Cerebral Palsy

“
Bibli

4 years old, US, 2017

Parents of Bibli attained new hope for their 4 years old son with cerebral palsy. They came to India for the stem cell therapy for cerebral palsy of their son. He received the treatment at SCCI and his parents are quite happy with the improvements in him.

“
Dylan

5 years old, Iraq: 2019

By the time Dylan was 20 months old, he had been detected with cerebral palsy. In 2019, parents Carrie and Jeremy took their son to India for a stem cell transplant at SCCI. He is now better and living a less physically restricted life.

“
Eric

3 years old, UK, 2020

After undergoing stem cell therapy at SCCI, the biggest thing we have noticed is his ability to track people and his vision. His cognitive skills have improved. Thanks to the team of SCCI.

“
Sofia

2 years old, Australia, 2016

Sofia suffered a deficiency of oxygen at birth and has cerebral palsy owing to it, so it is a middle-grade injury. We as her parents had visited India in 2016 for the stem cell treatment and she showed immediate improvement after the treatment at SCCI. Her circulation improved a lot.

“
Sarah

2.2 years old, Canada, 2018

Sarah was diagnosed with cerebral palsy when she was 5 months old. She was first treated at the Stem Cell Care India in Delhi using human umbilical cord-derived stem cells in 2018 when she came here with her parents. Now, her condition has improved a lot. Her vision has improved. She is trying diverse ways of communicating versus just shouting which is what she did before when she wasn't treated with stem cell therapy.

“ Reshma

12 years, New Delhi, 2022

Hi, I am Reshma, and I visited India in 2016 when my daughter showed some signs of intellectual disabilities. SCCI has given us scores of new hope. We listened to lots of positive stories about it, and I believe in it. And since the last time we have been here in India, I have been noticing, and a lot of individuals have told us, that this therapy works. After undergoing this treatment, my daughter can understand much more. Her attention is much better. So we really want to thank the team of SCCI.

“ Mr. Joseph

17 years, Nürnberg, 2021

Neurodevelopmental disorders are becoming more and more common due to the rising number of children exposed to electronic devices. Our kid needed an effective and affordable treatment, which is why we visited Vizec Stem Cell Institute. Their services were fantastic with a very professional feel and assuring skills. So I am very thankful that my child underwent stem cell therapy for the disease in India, and now he is recovering very well

Intellectual Disabilities

“ Mariam

8 years, Zürich, 2022

I am Mariam's mom. I have to say that I have been most awe-struck by the SCCI overall professional approach and the advantage that my daughter Mariam had received from the stem cell injection as she was suffering from some intellectual disabilities. The staff was excellent and quickly answered any questions I had regarding the treatment and expected outcomes. I can't say enough good things about the doctors that SCCI connected me to. I feel that they have given me hope and a chance to see my beloved daughter get rid of her disability and grow into a decent adult.

Muscular Dystrophy

Tiara

29 years old, UK, 2017

Tiara was suffering from a serious disease of muscular dystrophy. Her life was truly hard. She then underwent the stem cell therapy at StemCellCareIndia and luckily, is now living a healthy and disease-free life with her family.

Donald

51 years old, Australia, 2019

After three successive stem cell therapy for muscular dystrophy sessions in 2019 at SCCI, Donald could stand using splinters and walker without support. He could climb the stairs and was independent for most of his daily activities.

Beckham

32 years old, Canada, 2016

At the age of 28, Beckham started experiencing weakness in his leg muscles. He would fall often while running and tire easily even with minimal activity. He was diagnosed with muscular dystrophy. He came to India for stem cell treatment and he is now very thankful to SCCI as his condition has improved a lot after the treatment.

Federer

18 years old, UK, 2020

Federer was diagnosed with Duchenne muscular dystrophy at the age of 15. His parents took him to India for stem cell treatment of the same at SCCI. Post treatment, his condition has improved a lot.

Tyson

40 years old, US, 2018

After 2 years of stem cell treatment for muscular dystrophy at Stem Cell Care India, Tyson can now stand with the support of push up splint and bilateral support. He was able to dress up faster, do his exercises without any support. He is living a better life now. Thanks to SCCI!
