Osteoarthritis

Michelle

32 years old, UK, 2016

At the age of 29, I met with an accident and got crashed my right ankle. The internal ligaments and talus got really ruptured. However, as a relief to my melancholies, StemCellCareIndia's treatment worked like a miracle for me.

Mark

61 years old, Germany, 2018

Mark was able to walk again just 10 weeks after treatment and has now returned to his active lifestyle. He underwent stem cell therapy for osteoarthritis with SCCI in 2018. He is very appreciative of the status of SCCI.

Patrick

58 years old, US, 2020

After being diagnosed with osteoarthritis, Patrick decided to go through stem cell treatment at SCCI. The stem cell procedure was like a cakewalk to him, equating to a knee replacement.

Andrew

46 years old, US, 2017

Andrew was told that he would need a knee replacement after suffering from years of pain and inflammation because of knee arthritis. However, Andrew was then recommended an alternative therapy i.e. stem cell therapy. He was quite satisfied with the results after the treatment with SCCI.

Jenny

62 years old, Canada, 2019

Jenny has been suffering from osteoarthritis in both of her knees for the last 7 years. She had tried various traditional treatment options to try to reduce the pain. Then, she underwent stem cell therapy with SCCI in India and experienced a drastic improvement in her condition.

Fibromyalgia

Tammy T. Simmons

52 years old, US, 2021

I was in a lot of pain from fibromyalgia, researching stem cell treatment in India. I found Stem Cell Care India which offers stem cell treatment for fibromyalgia. I decided to have the treatment done, and it was less painful than I had expected. I could tell that the stem cell treatment in India worked because the pain started to go away, and I felt much better. I would recommend them to anyone.

Tanisha Dutt

38 years old, Dubai, 2022

I want to thank Global Stem Cell Care for its services. I was facing a condition named Fibromyalgia which was very challenging for me, with lots of pain all over my body.

Ranjeesh Kumar

49 years old, Rajasthan, India 2020

I was suffering from fibromyalgia and I couldn't get relief. I had tried many different treatments, but they weren't effective. Then I came across Stem Cell Treatment and I decided to give it a try. After just a few days, I was feeling better. It's been quite a few days and I now feel much better I would say that I am most of the way to being 100%. Thanks, amazing team of SCCI.

Aseem Khan

33 years old, US, 2022

I had been suffering from Fibromyalgia for a long. I had tried many treatments and medicines but to no avail. I was really worried about my condition. Then one day I came to know about Stem Cell Treatment for Fibromyalgia and I decided to give it a try. I was really happy with the results. I am feeling much better now. I would like to thank the doctors of Stem Cell Care India for providing me with such effective treatment for my condition.

Osteoporosis

John B Hood

32 years old, US, 2019

I was dealing with osteoporosis and my doctor recommended I get stem cell therapy. I researched and found Stem Cell Care India. I contacted them and discussed about the treatment, I felt safe and decided to go with them. My results have been good and I am on my way to recovery. I would recommend them to anyone who needs stem cell treatment, they are very professional and understanding.

Nicholas Parkin

60 years old, Penarth, Wales, 2020

My mother was prescribed stem cells for treating osteoporosis and we found out that she can undergo the same at affordable costs at Stem Cell Care India. It's been a couple of months after the treatment and the doctors said that she has recovered more than 50% of her bone density. It's a great relief to know that my mother is in better health. Thank you doctors and every one of the teams who assisted us during the treatment

Bianca Hargraves

49 years old, Australia, 2022

After trying the stem cell treatment for a few weeks I was able to improve my health and achieve great results. I don't have any problems with my bones or joints anymore, and I feel great. Stem Cell Care India is the best place for Osteoporosis Treatment in India. The doctors are very friendly and the facilities are awesome. They have the most advanced facility for treating Osteoporosis.

Osteopenia

Pamela Morales

52 years old, New Boston, Michigan, 2020

I have been using stem cell treatment to help me with my osteopenia, which is a condition that results in weak and brittle bones. The treatment has been customized to my specific needs and the results have been positive. I no longer feel pain in my body, and my bones are in the process of recovery. I am very happy with Stem Cell Care India and would recommend them to everyone..

Brenda B. Herbert

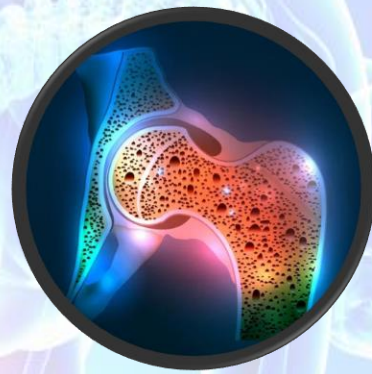

59 years old, Denver , Colorado, 2022

I found the stem cell treatment for osteopenia at SCCI really helpful. I had a lot of pain in my knee, but this treatment took all the pain away and I am able to walk without any pain now. I am really glad that I visited them as they were very caring and kept me informed about the purpose and scope of every step of the treatment.

Martin Evans

42 years old, UK, 2020

Hi, I am Martin from Ireland, and I visited India with my parents the stem cell therapy to cure my condition. I had a fantastic experience with SCCI

Delphine Flynn

63 years old, Australia, 2021

Hello, I am Delphine Flynn, and I was suffering from excruciating pains in my lower back and shoulders due to frail health. I had recently gone through a few arduous courses of Chemotherapy to cure my Breast Cancer, and now I had been suffering from excruciating pains in my lower back. After taking the doctor's supervision, it was communicated to me that due to chemo, it's possible that I now might have Osteoporosis. I was amazed and did not want a lengthy procedure for this ailment. My husband was seeking therapies over the internet for my condition, and it was then that he found out about Stem Cell Care India. He was motivated to plan out my treatment, but I was skeptical as I thought it would not be of much help. After a bit of deliberation, we came to India and undertook Stem Cell Care therapy. I must say that I felt much better after it and had a lot of relief from my lower back pains. I was told to me that this treatment would help rehabilitate bone health and motivate musculoskeletal healing.

Osteomalacia

Bill Favela

12 years, france, 2021

I am a chronic patient of osteomalacia. Since I have osteomalacia, my bones were not hardening like they were supposed to. No doctor in the United States could help me, either.

Harmony Gomez

52 years old, Italy, 2022

Hi, I am Harmony from Italy, and I visited India for treatment of osteomalacia. I was diagnosed with this condition by my healthcare provider. I was not able to do my daily tasks.

kylie

34 years, Switzerland, 2020

I am Kylie and my age is 34. In July of 2016, I was diagnosed with osteomalacia. After a lot of research and discussion with my family, I decided to fly to India to receive stem cell treatment via SCCI

Paul Young

35 years, England, 2022

Hello, I am Paul Young, and in recent months I have been suffering from chronic pains in my bones and shoulders that would not go away. On seeking medical supervision, I was prescribed a medication course, but even after following it ardently, I could not see many results. I was devastated and wanted to seek a full-on cure for the pains I had. The pain was so chronic sometimes that I would not even rise from the bed; my son used to help me pick myself up. These battles motivated me to seek a better cure. I started seeking the best orthopedic surgeon in my vicinity and booked my appointment for an examination there. A critical analysis from the doctor revealed that due to my previous gastric bypass surgery, my digestive system has not been fully able to digest Vitamin D, leading to a deficiency and osteomalacia. My doctor wanted me to pacify the situation with painkillers, but I was not ready. With the help of my son, I found Stem Cell Care India and booked our appointments. Their stem cell therapy helped in gaining my musculoskeletal strength back to some extent.

Spinal Cord Injury

Isaac

34 years old, Canada, 2017

I have been battling with spinal cord injury for the last 1 year. After the stem cell treatment with SCCI, I was able to stand on my right leg without a brace and walk. My pain level dropped between a 10 down to a 6.

Richie

29 years old, Kenya, 2018

I am thankful to the team of SCCI for supporting me so well in my stem cell treatment in India to cure my spinal cord injury. The circulation in my legs and my balance is better. I can carry things while walking with a stroller.

Charlie

41 years old, Canada, 2019

stem cell treatment with SCCI experience has changed my life in a better way. I am more comfortable driving. I can walk barefoot on my right leg without any braces now.

Carrie

30 years old, US, 2016

When Carrie was diagnosed with an SCI; she realized that she might have to prepare herself for adjusting to a lifestyle on the wheelchair. However, when she came to India for the stem cell treatment with SCCI, she had an eye-opening experience and was very contented with this treatment.

Mohd. Kaif

34 years old, Bangladesh, 2020

Mohd. Kaif suffered a T-8 complete spinal cord injury about 4 years ago. He is now at SCCI undergoing comprehensive courses of stem cell therapy that comprises intravenous injections of his own bone marrow-derived stem cells and mesenchymal stem cells.

Rheumatoid Arthritis

Jacob

44 years old, UK, 2016

I want to express my appreciation towards the specialists at StemCellCareIndia for relieving me of my arthritis problems and making my life full of happiness again. Thanks a lot SCCI.

Ali

67 years old, Saudi Arabia, 2017

I was diagnosed with rheumatoid arthritis and also other symptoms consistent with fibromyalgia. I decided to cure myself with stem cell treatment and contacted SCCI. I am thankful to the whole team of SCCI for treating me so well.

Cathy

39 years old, Spain, 2018

I was given a new chance because stem cells. I came to India and took help from SCCI for stem cell treatment for rheumatoid arthritis. I am very thankful to the team of SCCI for my cure.

Debora

42 years old, Pakistan, 2019

I am thankful every day that I underwent stem cell treatment via SCCI. It has been over a year and I have not been on any medicines and I feel wonderful! I am riding my bike 10 miles a day, swimming, walking, all essentially pain-free!

Mathew

51 years old, Canada, 2020

I was diagnosed with severe Rheumatoid Arthritis. I was 38 when I had symptoms and 48 when diagnosed. Was on medications for 3 years and nothing helped. So glad I found SCCI in my search for a stem cell treatment cure!!

Sports Injuries

“
Jackson

32 years old, US, 2016

My name Jackson and I am a football player. Last year, I had a foot injury owing to which I was not able to play my favorite sport. StemCellCareIndia helped to me cure my injury and now I am able to play football like before.

“
Amanda

28 years old, Canada, 2018

Amanda discusses her improvements following stem cell therapy for sports injury via SCCI. Her injuries are completely gone. Her left leg used to drag and now she can pick it up and walk.

“
Tracey

34 years old, Brazil, 2019

Tracey suffered sports injury while playing badminton in 2016. She came to India and underwent stem cell therapy. Her condition has improved now and she is very thankful to the team of SCCI.

“
Castor

28 years old, UK, 2017

My difficulties began about 4 years ago when I met with an injury while playing basketball. My joints hurt a lot and I was able to walk only with the backing of a walking stick. After stem cell treatment with SCCI, I am able to live a pain-free life now.

“
Patrick

25 years old, Australia, 2020

Since the stem cell treatment with SCCI in India, I have no pain; I feel really healthy and now I work out 3 times per week and I am in better shape than I have been in years after my sports injury episode.

Ankylosing Spondylitis

Andrew Hairston

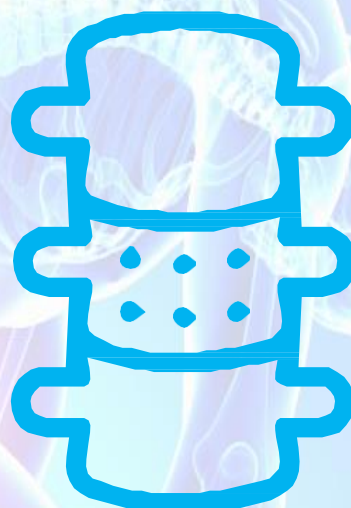

39 years old, New York, 20120

I was suffering from Ankylosing Spondylitis and didn't really know any good cure for my condition. My brother was surfing the web when he came across this treatment but he had his own concerns with choosing the best facility. He ultimately decided on Stem Cell Care India and I am thankful to him as the treatment was a smooth experience. I also would like to thank the doctors at this facility for their amazing services.

Mia Butler

56 years old, Great Manchester, 2017

The best treatment for me has been the one provided by Stem Cell Care India. I have nothing but praise for their team of professionals! They took the time to explain every detail of my condition to my satisfaction, and then I also got treated well after an intensive diagnosis process. The whole time spent at this center felt like one big outing since all of them ensured we understood everything before it all happened – going through procedures too! The Doctor listened to me carefully and executed each step flawlessly without missing a beat. I am really thankful to the doctors of SCCI.

Sidharth Chauhan

42 years old, Rajhsthan ,India, 2018

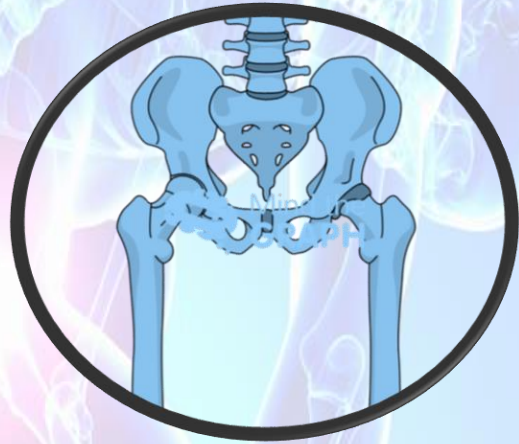

Stem Cell Care India is an amazingly fantastic place to visit if you are suffering from something such as Ankylosing Spondylitis. I was recommended here by one of my cousins who had had a recent experience in visiting this clinic and told me they were incredible with making them feel comfortable while treating them which was so comforting knowing how much relief I would find once the process was over. Stem Cell Care India is actually cheaper than most places that I looked up-which makes sense given how well they took care of me. They explained everything beforehand before ever performing any procedures and always made sure it wouldn't cause discomfort or pain for me. It's honestly been hard but, because of them, I'm almost back to being healthy!

Avascular Necrosis

Vera L. Weiner

44 years old, California, 2019

The treatment was very effective. I had Avascular necrosis with a bone spur in my hip. The treatment is effective, more evidence-based, and less painful. The stem cell treatment has been done and I am more confident, my hip pain is gone, and I am more active and energetic than I was before. I recommend stem cell therapy for all patients with Avascular necrosis.

Vierginia Thompson

52 years old, New York, 2022

Stem Cell Care India is a really amazing clinic for stem cell therapy of Avascular necrosis in India. I at first thought that it will make a difference but not too much. In reality, it's been only a few weeks since my treatment, already I am a lot better. I am thankful to the doctors there for taking care of me.

Nancy Dubey

39 years old, Tamil Naidu, India 2020

I had Avascular necrosis in my hip joint. I was in a lot of pain, and I was worried about other side effects of the surgery. I found stem cell treatment for Avascular necrosis on the internet and I decided to give it a try. I got treated at Stem Cell Care India at an affordable price. I am now able to walk and do my work without much pain. I am very grateful for your guy's assistance.

Degenerative Disk

Thomas Marsden

48 years old, England, 2021

I had been suffering from degenerative disk disease for months before I found out about Stem Cell Care India. This center offers affordable treatment using adult stem cells, which have been proven to help with a variety of joint and bone problems. I was surprised at how easy and painless the treatment was, and I noticed major improvements in my health and mobility within days of the procedure.

Anna Voigt

58 years old, San Antonio, Texas, 2020

I have degenerative disk disease, and I had some really bad pain. I tried this stem cell treatment and I got really good results. It was less painful, and it was really safe. I would recommend this treatment to anyone who has degenerative disk disease and needs a safe but effective treatment.

Ajit Kumar

52 years old, Delhi, India, 2021

I had degenerative disk disease and my doctor told me that I needed surgery, but I wanted to avoid it if possible. I found stem cell therapy and decided to give it a try. I was skeptical at first but then I went ahead with the treatment and I was amazed. I did not have to go under the knife and I am doing great. The procedure itself was not as painful either. I am definitely going to recommend this to anyone in need.

Sciatic Nerve Injury

Werner Crawford

32 years old, Georgia, 2019

I am very thankful to Stem Cell Care India for proving me with the treatment for sciatica. I really don't have any idea about what treatment I would otherwise have chosen, as my research showed that all others were not very effective. I am also thankful to all your staff for taking great care of me while I was at the clinic. They were very polite and I overall had a wonderful experience. I sure would recommend you to any patient suffering from Sciatica out there.

Isabella Hale

48 years old, France, 2020

The treatment of stem cells has provided me great relief, and here I was thinking what if I suffered from any side effects or took the wrong treatment? Even at first, I was skeptical about stem cell treatments because other clinics have very high claims regarding it, but didn't explain the process itself very well. When I reached out to Stem Cell Care India on the advice of an old friend, the treatment was explained to me and I got some confidence. My pain is a lot less now and I am very satisfied with the treatment results.

Satyam Kaushik

46 years old, Indore, India, 2022

Stem Cell Treatment is really amazing and helped me wonderfully. All my pain is gone and I feel way better than before. My thanks go to the SCCI team as they guided me neatly and also assured me of the safety of the injection. Their hospitality is also very good and I am very happy I choose to go there.

Shoulder Injury

Ujjwal Biyani

29 years old, Hisar, India, 2020

I was looking for a shoulder restoration treatment when I came across this stem cell treatment center in India. After my shoulder was injured in a car accident, I was unable to move my arm and was in constant pain. The doctors were quick to assess my injuries and gave me a treatment plan. The results were great and I am now able to move my arm again and the pain has disappeared. The doctors were understanding and I was able to get the treatment I needed at an affordable price. Plus, they provided me with free post-treatment support.

Glenn Barge

38 years old, Trenton, New Jersey 2020

I was suffering from shoulder arthritis when I found out about stem cell treatment for shoulder conditions from India. I was overjoyed to know that there was hope for my shoulder injury to recover and be back to normal again. The doctors were very skilled and the treatment went by smoothly. I got my shoulder back in no time and am now completely pain-free!

Marjorie J. Owens

42 years old, Lebnon, Ohio, 2022

I had a shoulder injury and I couldn't even lift my right arm without feeling pain. I started to look for stem cell treatments and the only place I could find was in India. I was a little hesitant to go, but I was told that there are excellent stem cell treatments available in India and the prices are much cheaper than in the US. I was a little worried about traveling alone, so I asked my sister to come with me. It was a long flight, but it was worth it. The doctors were very helpful and explained the whole process. I felt better after the visit. It was definitely worth the money!

Binod Deshmukh

31 years old, Kolkata, India, 2022

I am a professional basketball player and had a shoulder injury. After passing through several doctors, I came to know about Stem Cell Care India. I opted for stem cell treatment after consulting the expert there. The treatment was successful, now I am back playing my game. I would like to recommend stem cell care to all who are looking for a reliable treatment for orthopedic problems.

Systemic Lupus

Jonathan
T. Elisson

29 years, Canada, 2022

I came to Stem Cell Care India with over 6 years of Systemic Lupus and was desperate to find a cure. I opted for Stem Cell Therapy and was administered the treatment. I was surprised to see the results. My lupus symptoms were all gone in just a few weeks and I was able to resume my normal life. I can say in all honesty, that Stem Cell Therapy has given me a new lease on life.

Lorine R. Decamp

40 year old, Dallas, Texas, 2020

I was able to find the best stem cell treatment for systemic lupus from India in the form of Stem Cell Care India. I was skeptical at first but the results and the rate at which I was able to improve my condition were commendable. I'll admit that I was very scared but somehow felt confident too as the staff there had explained to me every part of the procedure in simple terms. I'm happy to be alive and healthy! Thanks SCCI staff and doctors..

Saundarya singh

43years, Canada, 2021

Hi, I am Saundarya from Canada, and I visited India with my sister for my treatment in Delhi. I found the best stem cell treatment for systemic lupus from India in the form of the [Stem Cell Institute](#). I was initially skeptica

Tashi

35 years, Bhutan, 2019

I am Tashi, 35, from Paro Bhutan, and it was due to the progressing systematic Lupus I suffered from persistent rashes and pain in my body. I went to many doctors, but none of them could identify what I was going through. I followed a lot of prescriptions which did not help me feel relief either. Although I was astounded by the lack of medical facilities for my symptoms, I read about my symptoms over the internet, and that was where I found out about Lupus. Seeking a cure, I then went on to find Stem Cell Care India, who told me about the benefits Stem Cell Therapy could have and helped me plan my treatment. Once I went to India for treatment, the doctor discovered I had Lupus. It probably was because of my exposure to harsh chemicals because I worked in the sanitation department and probably because of my seizure medications. Stem Cell therapy helped me reverse my symptoms to some extent and provided much-needed relief from the pain I was suffering from.
